

PEOPLE PROFIT PLANET

SEPTEMBER 10TH - 11TH 2018, MUSIKKENS HUS, AALBORG

FOR 10 YEARS, access2innovation has been at the forefront of establishing partnerships between researchers, civil society organisations and private companies in order to develop economically sustainable solutions to the World's most pressing problems; **CLEAN ENERGY, SANITATION, FOOD SECURITY** and **HEALTH** in developing countries.

Over the years, the association has facilitated more than **50 PARTNERSHIPS** in Denmark and East Africa and helped introduce truly innovative approaches to development work and sustainable business.

At this two-day conference, you will gain inside information on new markets and partnership opportunities within **RENEWABLE ENERGY, ICT, HEALTH** and **AGROBUSINESS**, and

an honest insight into the multitude of challenges connected to sustainable cross-sector partnerships between Denmark and Africa.

It will be two days of state-of-the-art **KNOWLEDGE, NEW BUSINESS OPPORTUNITIES, FINANCING**, exhibitions of **WORKING SDG SOLUTIONS, HARDCORE NETWORKING** and **GREAT COFFEE** as we develop the blueprints for a sustainable future.

Set at the impressive venue *Musikkens Hus* in Aalborg, we invite you to enter the world of access2innovation.

BY 2050

WORLD POPULATION WILL REACH **9.8 BILLION** PEOPLE

FOOD PRODUCTION MUST INCREASE BY **70 PERCENT**

66 PERCENT OF THE GLOBAL POPULATION WILL BE **LIVING IN URBAN AREAS**

250 MILLION PEOPLE MAY BE FORCED TO BECOME **CLIMATE MIGRANTS**

ONE IN FOUR PEOPLE ON THE PLANET WILL BE **AFFECTED FROM LACK OF WATER**

530 MILLION PEOPLE WILL HAVE NO ACCESS TO **ELECTRICITY**

ESTIMATED MARKET VALUE: **5.3 TRILLION USD** PR. YEAR

THE **UN SUSTAINABLE DEVELOPMENT GOALS** SET A GLOBAL VISION FOR JOINT ACTION IN A NEW ERA WHERE **SUSTAINABLE PARTNERSHIPS** WILL MEET THE CHALLENGES AHEAD

We round up in a spectacular way with **LAST EXIT BEFORE THE ABYSS** (*Sidste afkørsel før afgrunden*) - a multimedia event about the state of humanity on a struggling planet - featuring neuro scientist Peter Lund Madsen, sociologist Rasmus Willig and philosopher Tor Nørretranders.
